✉ arshdeep252004@gmail.com | ☎ 7807932062 | GitHub: github.com/Arshdeep2004

Computer Science Engineering student with strong skills in Python programming and full-stack web development. Experienced in building scalable web applications using the MERN stack, REST APIs, authentication systems, and database management. Passionate about backend development, problem-solving.

EDUCATION

- Chitkara University
Bachelor of Engineering (B.E.) in Computer Science and Engineering (2022–2026)
- DAV Centenary Public School, Una (H.P)
Senior Secondary Education (CBSE – 2022)
- DAV Centenary Public School, Una (H.P)
Secondary Education (CBSE – 2020)

SKILLS

- **Programming Languages:** Python (Advanced), Java, JavaScript, C++, SQL
- **Web Development:** HTML5, CSS3, JavaScript, React.js, Node.js, Express.js
- **Backend Development:** REST APIs, Authentication, Session Management
- **Databases:** MySQL, MongoDB, SQLite
- **Tools & Platforms:** Git, GitHub, AWS, MySQL Workbench
- **Core CS Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

- **Fake News Detection using Machine Learning & NLP**
Developed a machine learning-based fake news detection system using Python and NLP techniques to classify news articles as real or fake. Implemented data preprocessing, tokenization, stop-word removal, and TF-IDF feature extraction for text analysis. Trained and evaluated Logistic Regression and Naive Bayes models using Scikit-learn while utilizing Pandas, NumPy, and NLTK for data processing and model development. Evaluated performance using accuracy, precision, recall, and F1-score metrics.
- **Fund Raising Platform (MERN)**
A modern web platform designed to simplify and secure the process of raising funds for social causes.
Built using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- **Two-Wheeler Sales**
Developed an E-commerce backend ensuring scalable and real-time shopping experiences.
Backend: Node.js with Express.js for server-side logic and API handling.
Database: MySQL for persistent storage of user details, product listings, and transactions.
Session Management: Express-session integrated with MySQL Workbench for efficient and scalable session handling.

CERTIFICATIONS

- Cyber Security (by CISCO) – 2024
- Blockchain (by Coursera) – 2024
- Generative AI for Data Analysts – 2025
- IBM AI Enterprise Workflow – 2025
- IBM Python for Data Science, AI & Development
- Meta Front-End Developer
- Machine Learning with Python-IBM

ACHIEVEMENTS / EXTRACURRICULAR ACTIVITIES

 Gold Medal – District Open Deadlifting Championship

 Participated in Powerlifting Competition hosted by CSE Sports Club, Chitkara University
